Engelsk oversættelse

I am not comforted any night and I'm not forgetting you
I didn't find an end for my suffering
And If I go apart from you, I'm with you when you are away

I 'm alive but I feel I'm dead; I can't resist you apart from me
I can't forget you and I don't want any lover except you

I'm asking and my heart is dreaming one day to relief from his pains
Our sweet nights that was between us from a while
Will come again or they are gone

I'm alive but I feel I'm dead; I can't resist you apart from me
I can't forget you and I don't want any lover except you

I didn't love anyone else except you and what can I do for my love
And all day and night thinking of you it's enough come back to me

I 'm alive but I feel I'm dead; I can't resist you apart from me
I can't forget you and I don't want any lover except you
